

Tahoe LLC announces their new performance finish. *Barricade*[™] is a heavy-duty permanent application that will protect your fabrics from spills and stains. It is environmentally safe and contains no formaldehyde. It can also be combined with other finishing applications.

It is a recyclable finish and has a resin base. It can also be combined with other finishing applications. *Barricade*[™] is easy maintenance for liquids by blotting with a dry cloth and wiping with clean water. For soft and dried spots, easily wipe with water and a clean cloth and lightly brush with soft bristle brush. Mild detergents can be used on stubborn stains such as wine and coffee.

Barricade[™] has many applications such as healthcare, educational, hospitality, residential seating, pews, drapery, panel fabrics and wall covering.
